NEW MANAGER NAMED AT SAN PABLO PLANT

Enormous Development Is Seen; Two New Kilns Now In Operation

Taking the place of Paul Birkholm, former manager of the Pacific Pottery works of the Standard Sanitary Manufacturing company, Henry Creeger, of Tiffin, Ohio, will arrive today to assume his new duties at the San Pablo plant, according to Frank A. Kaes, superintendent of the Pacific Coast division of the Standard company.

Creeger has had a large amount of experience as assistant manager of the Standard plant in Tiffin, and it is expected that many new ideas in output and supervision will shortly be in force.

It was predicted by officials of the company yesterday that production of the Pacific Pottery will be tripled within 2 months. Two huge tunnel kilns have recently been constructed at enormous expenditure and represent the last developments in oven building.

Each kiln is 280 feet in length and two streets were closed by the supervisors to permit of their construction. The ovens are of the continuous car type, and enable a finished product to be made at a minimum of time and expense.

The wet pottery put into the oven is received at the other end ready for the market. One of the ovens is used exclusively for glazing.

Additional improvements and developments are expected to be made if the output of the plant maintains the record attained recently, officials stated.

Mrs. Dietrich had lived in Richmond for the past four years. She was a native of Germany. She was the wife of Otto L. Dietrich; the daughter of Mrs. Johanna Henning; the mother of Otto, 6, Annie, 4, and Frank, 2; the sister of K. J. Henning and Bruno Henning, both of Richmond; Mrs. George Auer, of Oakland; Mrs. Paul Schmidt, of Alameda; Mrs. J. Johnson, of San Francisco, and Herman Henning, of Chicago.

DYKES CRUSHED BY IMPOUNDED FLOOD WATERS

Scores Of Villages And Towns Overwhelmed By Torrents

(By ARTHUR HACHTEN
—Universal Service)

NATCHEZ, Miss., May 3.—Scores of towns and villages in northeastern and central Louisiana today fell prey to flood and backwater from swollen rivers, as levees facing larger communities and protecting hundreds of thousands of square miles of land reeled under the pressure of raging torrents.

Two fresh breaks in levees were reported in Louisiana during the afternoon. The Millikens bend levee went out at 2:40 and later the Dickport levee, protecting the United States experimental station for cotton pests, broke. The Millikens bend break will flood Madison and Tensas counties.

Twenty cases of malaria were discovered at the Natchez refugee camp today. Only one victim of malarial fever was in bed.

Out of the 907 refugees in the camp there were ten cases of enteritis, one pneumonia, two typhoid and 78 miscellaneous ailments in addition to those having malaria.

About one third of refugees pouring into Natchez from Louisiana across the river are white men women and children.

Louisiana is fighting with her back to the Gulf of Mexico, forced to give ground on a vast front to the inexorable floods whose stupendous damages are magnified as additional levees snap under the strain. With the main swell in the Mississippi river, thousands of men worked day and night along the levees from that city south frantically trying to

Gray Puts Finger On 'Mumsie'; Tells Hectic Details Of Love

BL. DAMON RUNYON
(By Universal Service)
LONG ISLAND CITY, N. Y., May 4.—That scoundrel-rabbit looking little man, Henry Judd Gray, the court room—to make the angels shed tears, and men hide their faces in shame, that such things can be.

Henry Judd had scarcely gotten out of the hotels which he and Mrs. Ruth Brown Snyder infested in the days—Ah, yes, and the nights—when their heat for each other was up around 192 Fahrenheit, when a recess was taken until tomorrow morning.

Everybody was weary of traipsing up and down hotel corridors, and in and out of hotel rooms, but Henry Judd kept making a long story longer under the direct examination of Samuel L. Miller, the stout, sleek looking young lawyer who is associated with William L. Millard in defending Gray.

Henry Judd hadn't gotten right down to brass tacks, which is after all the story of the butchery of Mrs. Snyder's husband, Albert, and which Henry Judd will undoubtedly blame to the blonde woman, who has made him out the arch-sashweight of the bloody business.

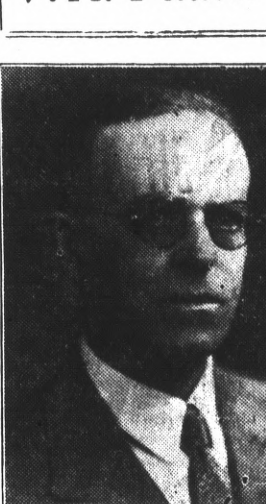

He had gone over his own early life before he met Mrs. Snyder and was a happy little corset salesman, with a wife and child down in New Jersey. He wept when he spoke of that, but composed himself, with a stiff jolt from the same glass that had but recently been pressed by the lips of his former sweetie.

It was a dull, dry recital, especially those numerous little excursions to hotel rooms. A trip to one hotel room might be made exciting, but when you start going through one of these modern hotel rooms by room, the thing lacks zest.

Gray stepped to the stand with a quick tread and an almost solid, early bearing which was most surprising in view of the fact that he has looked all folded up like an old accordion since the trial started. He did not commence straightening up until Friday when he found Mrs. Snyder nudging him toward that warm chair at Sing Sing.

He raised his right hand and (Continued on Page 5)

V. A. Fenner

(By Pacific & Atlantic)

Of the six candidates in the field, there is but one from the west side, Virgil A. Fenner, and there is a general feeling in all parts of the city, which is growing stronger, day by day, that he should receive the united support of the voters at the election to take place Monday, May 8th.

Fenner did not enter the campaign of his own volition, but as the result of the insistence of substantial people representing every walk of life, maintaining that he should permit his name to go before the people, because it was a civic duty that he owed the general public.

Those interested in his campaign feel that for him to occupy a place on the city council will be a distinct advantage to the taxpayers of Richmond. They feel that the good judgment he has used in the successful conduct of his business on Washington avenue, and the careful and conservative manner in which it has been handled will mean much when he takes a hand in the business of the public.

Fenner is a man who is not in the habit of acting hastily, but always considers every matter with the utmost care, but when he makes up his mind what is right, there is no influence or unseen hand that can force him to change his mind.

Richmond has stepped out of its swaddling clothes, and is no longer a cross roads village, but is a big bustling thriving city, and it needs men of business acumen to handle its affairs.

Friends in all parts are rallying to his support, and common report would indicate that when the votes are counted that he will be found as one of the leaders.

THERE WAS A LION, STRAW AND A MEET

When Daniel emerged from the Lions' Den, not a hair of his head was harmed, but he was minus a perfectly good straw skimmer.

It might be remarked to bible students that Daniel's last name is Beardon and that instead of being a prophet, he holds down the austere position of manager of Richmond's West Coast theatres. Likewise, the Lions were not of the thick maned variety, the Richmond's Pen of Lions gathered in a joint session with the Kiwanis and Rotary Clubs at the Hotel Carquinez yesterday noon.

Dan parked his straw kelly in the rack at the hotel before going in to the luncheon. When he returned it was very much gone. He was forced to remain until everyone had departed to see what kind of a hat he had drawn. It proved to be a Panama similar to his own.

WASHINGTON, May 3.—President Coolidge today definitely committed the United States to a policy of peace and absolute independence of action in the Chinese crisis.

This was stated at the White House, following a cabinet meeting at which the situation was discussed and a decision reached to clarify the American position.

It marks the final break between this government and the four powers on the proposals for joint military action and to force Eugene Chen and the radical Cantonese to make amends for the Nanking outrages.

At the same time, it was stated that it is even doubtful if the United States will join the four powers in a second joint note to the Chen faction.

It was stated that the presence of American warships would hardly be necessary in China if a stable government existed and that this country is most anxious to withdraw as early as it safely can do so.

Insofar as protection of foreigners is concerned, the United States was officially declared to (Continued on Page 8)

Gas Price War Comes To End With Retail Price Of 19c

SAN FRANCISCO, April 3.—One of the most intensive oil wars in the history of the state came to an end today.

Gasoline at most of the filling stations will be retailed for 19 cents a gallon commencing tomorrow morning. This price will include the tax.

Richfield followed the announcement made by the California Petroleum company in Los Angeles that their price for gas would retail for 18 1/2 cents.

In San Francisco the Standard indicated that an announcement might be made later meeting the new price. California Petroleum, Richfield, General Petroleum and Shell Oil companies definitely declared that the 19 cent rate would be effective Wednesday morning.

An announcement by the Union and Associated Oil companies is expected tomorrow.

Girl Eloping With Step-Father Comes Back To Her Mother

(By Universal Service)
NEW YORK, May 3.—Olive Schick, the nineteen year old girl who eloped with her step father came back home today. She was greeted at the station by her mother and immediately secluded herself in their home at Maspeth.

Olive and her stepfather Edward Jones fled to Chicago leaving a note in which they declared they loved each other and were taking the only way out.

Mrs. Jones has forgiven Olive, but she bitterly reiterated today that she was through with Jones.

"THAT'S THE LAST STRAW" HE CHORTLED

Had old Beau Brummel been standing at the corner of Tenth street and Macdonald avenue yesterday morning, when the Straw Hat parade passed with shuffling sirens (none of the female variety) and sedans swarming with smiling swains sartorially splendid in summer straw skimmers, he would probably have fled the city for fear of being "vaggued" out of town. (A very neat sentence, President Coolidge.)

The parade was a grand success and the screaming sirens and honking horns weren't much louder than some of the new hat bands.

The procession formed at Sixteenth and Macdonald under the direction of Clinton Smith.

With a resplendent Old Sol smiling benignly it moved down the "main drag" to the alleged disfigurement of the women who lined the sidewalks (perhaps to pick out a neat straw wearer as husband-elect) For once the ladies were out of the picture. The "birdies" saw only the gruffer type of humanity. (Printer: put one large HALLELUJAH at this point.)

Colors ranged from banana skin, orange crush, yellow jaundice, hornet, to Shasta white, creme de menthe, and glue. Hat bands defied description.

All in all it was one kaleidoscopic day.

The typewriter has lost three keys, the dictionary has all of "Z" missing, and there's something else in the RECORD-HERALD beside this—all of which are good reasons for desisting at this point. BOY, a tankard of good cold water.

Red Cross Needs \$5,000,000 For Flood Victims; Mobilizes All Relief Resources at Memphis

1 "Main Street" in one of the 32 refugee camps established by the Red Cross is shown in the upper photo. In the foreground two helpless victims of the merciless waters are shown inspecting their new quarters.

2 A group of refugees receiving food from a Red Cross canteen worker. Mass feeding such as this has been necessary in some camps but is being avoided wherever possible.

3 Acting Chairman James L. Fieser of the Red Cross who is assisting the administration of relief from base headquarters at Memphis, Tennessee.

WIT more than 100,000 persons already homeless and the mighty Mississippi threatening each instant to tear its way through additional towns in the one-time happy valley, the American Red Cross finds itself face to face with probably the greatest relief problem of the past century.

The President of the United States has actively participated in mobilizing governmental agencies and resources to assist the Red Cross in its relief program. On April 22, following the custom in previous disasters of the first magnitude, he issued a proclamation calling upon the people to subscribe to the Red Cross relief fund.

This he did in his capacity as President of the United States and President also of the Red Cross. He followed this action with the appointment of a special committee from his Cabinet, comprising Dwight D. Davis, Secretary of War; Curtis D. Wilbur, Secretary of the Navy; Herbert C. Hoover,

Secretary of Commerce, and Andrew W. Mellon, Secretary of the Treasury, to work in conjunction with Red Cross officials. At the first meeting of this committee with the Red Cross acting chairman, James L. Fieser, and others, it was decided that a minimum of \$5,000,000 will be needed to take care of the flood sufferers.

The disaster was reported to exceed in proportions the Florida hurricane of last fall, when the roster of homeless was 50,000. It differs in that there is huge total of dead and wounded. In this case, however, there is no definitely cut out problem as in Florida, for the elements have not finished their havoc. Whether the waters will start to recede within a few weeks or whether they will continue to rise indefinitely, sweeping additional houses down to the sea and engulfing additional acres of farmlands and villages, cannot be foreseen.

Henry M. Baker, national director of disaster relief for the Red Cross, has been made dictator of the Mississippi Valley with the powers of a general in war. Headquarters of the relief corps is at Memphis, Tenn., where liaison officers of the Army, Navy, Commerce Department, Coast Guard, Public Health Service and Veterans' Bureau are working in conjunction with Mr. Fieser, Secretary Hoover, Major General Jadin, chief of army engineers, and Dr. William R. Redden, medical advisor for the Red Cross in Memphis, to assist in the gigantic program.

Relief funds are beginning to come in to National Red Cross headquarters in Washington and to chapter headquarters in every state and all that it is humanly possible to do is being done for the refugees. Quotas have been assigned to the chapters and 3,000 of these are collecting funds. Prior to leaving for Memphis, Chairman Fieser expressed his belief that the American people will respond generously to the appeal for the flood sufferers.

Large Number Attend Luncheon Given By St. Edmund's Guild

The charming luncheon party given by the St. Edmund's Guild yesterday at noon was a highly successful affair. Between forty and fifty people were in attendance, including some of the teachers from Roosevelt Junior high school, visitors and regular members. The meeting was presided over by the president, Mrs. H. J. Hill and the committee was under the direction of Mrs. Mary Robertson assisted by Mrs. Mickey, Mrs. Tobernassy, Mrs. McCann, Mrs. H. J. Hill and Mrs. Caroline Rogers.

There is to be another meeting Friday, May 6, when a social will be given by the Ladies of the Parish Guild. A clever skit "How to Earn Your Dollar" will be acted by members of the group.

BUILDER KING DEAD; LEAVES WIFE TRIBUTE

By H. H. STANSBURY
(By Universal Service)

LONDON, May 3.—Lord Cowdray, who refused to relinquish the crown as "king of builders," to become the king of Albania, left a wonderful tribute to his wife and the men who aided in his life achievements. It was published by Lady Cowdray at the funeral.

The tribute was taken from a speech which the great engineer had prepared to make in accepting the freedom of the city from the Aberdeen town council. In it Lord Cowdray said:

"From the influences which shape one's life nothing comes into the same category with the great, crowning influence a man possesses in that perfect partner—a well-mated wife. To have you one who shares with head and heart the success and failures; who gives due encouragement but has the courage to administer the honest truth, sometimes unpleasant but necessary, who is never afraid of responsibility but is prepared to start life afresh should the need arise—such a partner is beyond praise or price."

"She is simply one's needed lifeblood, and I make no apology for this due tribute to mine."

LOUGHRAN WINS DECISION OVER YOUNG STRIBLING

SUTHERLAND TO BATTLE LIMAS FRIDAY NIGHT

The Friday night show at El Cerrito will feature some of the best performers when Promoter Rossi turns loose some of the best stars now boxing in local rings. Joe Limas, the Richmond boy, whom many think will put Richmond on the map as a future world's champion, will show his wares against the rugged veteran Roy Sutherland of Oakland. Sutherland has been boxing a long time but is still younger only 26 years of age. Roy showed that he was still to be reckoned with when he sent Rebel Stewart into the land of dreams in two rounds last week. Sutherland has done little training in the last year or two. Roy had little ambition. Now he is taking the game seriously. He knows that if he can get over Limas he will be in demand. Up and early Roy started last Saturday morning hitting the road.

Manuel Frayo, the newcomer billed from Los Angeles, who takes on Bennie Vierra of Oakland, is making a hit in the Oakland Imperial Gymnasium where he is holding his own with such boys as Jimmy Duffy. Frayo comes here with a real record from the south where he beat many of the best. Vierra is in for a busy night. The clever veteran, who has defeated many good boys, knows that Frayo is no set up and is leaving no stone unturned to be at his best. Vierra has been promised a main event if he wins. Bennie has not fought since he beat Stewart McLean in a main event at Oakland some months ago. Vierra boxing a semi wind-up in this section gives one an idea just what kind of matches Billy Bernheim is giving the fans here. Boxing a main event and then boxing a semi here shows that the Bernheim-Rossi combine is bound to loosen the dollars from the fans' pockets around here. And, if they can keep on doing that they can rest assured the fans will witness every show with a main event.

The six round special will see a real battle. Ray Walker, the clever Oakland featherweight, has a date with Bobby Ertle also of Oakland. Keen rivalry exists between these two. There are few better boys in the featherweight division than Ertle and Walker. Both won their last starts here and both over Mickey Brown, whom many thought unbeatable.

Young Pancho Villa who has been a constant winner in Oakland and San Francisco will take on Lefty Shore, a hard nut from Vallejo. Lefty, a tall skinny kid will outweigh Pancho about twelve pounds but such little things mean nothing to Pancho.

TWILIGHT LOOP OPENS TONIGHT

The eighth season of the Standard Oil Twilight League will be ushered in this afternoon at the First street ball park when the Mechanics and Refinery clash in a contest billed to start at 5:10 p. m.

Interest in the 1927 campaign is said to be at a high pitch at the local refinery, and a record crowd is anticipated for the opening. Kogler and Bartoli will do the battery work for the Mechanics, with Wolfram and Gaddy forming the Refinery battery.

The All Standards and Barrel House teams will meet in the second game of the season tomorrow afternoon.

who has fought them even bigger. Pancho never weighs over 102 pounds so getting boys that small for him is a miracle. Villa last fought here a main event and held Bobby Mars even. Mars broke a bone in his hand last week when he fought Mickey Britton or he would have met Villa. Therefore should Villa beat Shore he will meet Mars probably on the next card.

Joe Vierra, who stopped Salvador Ortega and was given a bit the worst of the breaks when Abe Berg was given a win over him last week will take on John Lario, a newcomer from Elmhurst. Lario is a veteran who has fought the best. He is just back from Australia where he won two bouts over the best in that country.

In the opener of four rounds our old friend the Bullfighter will meet Billy Liner. Liner is a fast kid from Oakland and from all outlooks may put the bullfighter to sleep. All told there are thirty rounds of boxing billed. Three sixes and three fours.

PHILADELPHIAN WINS RIGHT TO FIGHT DELANEY

NEW YORK, May 3.—Tommy Loughran of Philadelphia tonight earned the right to a light heavy-weight championship bout with Jack Delaney by defeating Young Stribling of Macon, Ga., in a ten-round bout here at Ebbets Field.

Outdoor boxing was ushered in to Manhattan tonight in overcoats and gloves—and the fans wore the latter articles as well as the fighters.

This became apparent this evening as the crowd began to gather for the first event of New York's outdoor boxing season.

Despite the deceiving warmth of the morning and afternoon, the veteran ring-worms, with memories of other early spring freezings still in mind, came prepared for the tangy night ocean breezes which found their way into Humbert Fuxay's fight arena in Brooklyn.

The introduction of the popular \$1 to \$5 seat prices, early appeared to be an undoubted hit. The \$1 seats, a Santa Claus gift for such an attraction as the Stribling-Loughran go, were not put on sale until this afternoon, and lines of fans two and three blocks long were waiting for the opening of the ticket windows.

Although tonight's fight was expected to furnish a challenger for Jack Delaney's light-heavyweight title the main interest seemed to lay in the question as to whether or not young Stribling, who has fought several sorry fights in this location, would redeem himself.

Loughran went into the battle a slight favorite, although he had been twice beaten by Stribling in former meetings, because of the report last night that Stribling had injured his shoulder.

The Philadelphia fighter enjoyed a pound and a half weight advantage over Stribling, the former weighing in on the boxing commission scales this afternoon at 174 1/2 while Stribling registered 175.

MORE THAN 30 DOCTORS—RHEUMATISM QUICKLY RELIEVED.

Oakland, Cal., April 16, 1926.

During the past eight months I suffered from rheumatism in my hands and legs. Although I tried various remedies and doctors, I obtained no results.

I had also suffered from colitis and kidney troubles for eighteen years and had been treated by more than thirty doctors in Seattle and Oakland. Most of the medicine that they gave me had a bad effect on these organs, and I did not improve in any way.

At last, however, I found most wonderful relief in the FONG WAN HERB TREATMENT. I came to Fong Wan to take the tea for rheumatism but not only has the rheumatism gone, but my kidneys and intestines are in fine condition and I am free at last from pain.

Title Hopes Blasted

When Young Stribling (above) saw Tommy Loughran's right hand raised in token of victory over him last night in New York, he saw his own hopes for a title bout with Jack Delaney blasted to the ground.

New White Sox Pilot Hardest Worker In American League

By Al Nickerson

They call Ray Schalk, the new manager of the Chicago White Sox "Cricket." This is partly because he is only five feet seven, but more largely because of his unbounded natural energy. For 14 seasons he was the hardest worker on the club he is now to pilot. Schalk is no cricket on the bench. Nor can he afford to be while in the employ of President Charles A. Comiskey, the Old Roman, one of the most restless club owners in baseball. Schalk will have to be a cricket on the war-path.

His assignment is to land a team which needs a number of replacements higher than fifth, where the White Sox have clung for two seasons.

Schalk is a spunky little chap; a demon for punishment. He was caught something like 1,600 games of big league baseball. He came up to the Sox from Milwaukee in 1912, and began catching 100 games out of the 154 on the schedule the following year.

Until 1923—despite the buffeting of spiked, sliding runners tearing in from third base, and notwithstanding the thousands of good bad and indifferent pitches whizzing past the batters into his old mitt—he never caught less than 100 games a season. In 1920 he was in all but three games. Twice he has passed the 140 mark.

Being fond of work, Schalk will continue to catch. He will be no bench manager. With all his energy, he has an equal amount of balance. The latter quality ought to carry him far in the great miss-and-out race in which 16 managers of big league teams will start next April. Miss getting your club up from the ruck and out you go. That is the new ultimatum

Darrow Protests Alien Deportation

(By Universal Service)

WASHINGTON, May 3.—Clarence Darrow, noted Chicago criminal lawyer, today protested to the Labor Department against deporting aliens who are political refugees and face "certain death" if returned to their home lands.

This fate awaits Eneas Sormenti who has been ordered deported to Italy. Darrow told the immigration board of review. Darrow contended Sormenti was entitled to asylum in this country as a political refugee.

Sormenti came in as a stow-away four years ago.

Huge Total Seen In Foreign Loans

(By Universal Service)

WASHINGTON, May 2.—All records in the history of international financing in this country were broken last month, when American underwriters floated \$209,000,000 of foreign loans, the Commerce department announced today.

This was \$31,000,000 more than the total for last January the previous monthly monthly all-time record. It was an increase of \$80,000,000 over April last year.

All but \$2,000,000 was new capital.

Europe forged ahead of Latin America in the borrowing, reversing the positions the yucciped in the last half of 1926. Canadian loans also exceeded the Latin American total.

Europe borrowed \$92,000,000, largely through governmental loans. Canada took \$58,000,000.

Other speakers on this topic included Morris E. Hurry, in charge of the Oakland part-time school and a member of the Oakland Lions club; Miss Mignon E. Harmon, secretary of the Junior Placement Bureau, and Dr. Charles Mueller of the Oakland Kiwanis club.

A musical program included music by the high school orchestra, violin solos by Miss Dorothy Rose, and vocal solos by Charles F. Donnelly. President B. X. Tucker, was assisted in the meeting by President Ralph Bergen of the Kiwanis, the President W. T. Helms of the Rotary club.

Straw Hat day was introduced by Clinton Smith, who presented the "Spirit of Summer." Ward McKracken successfully bid for the man's size straw hat, which was a feature of the Straw Hat day parade.

An invitation to attend the Rotary meeting on Friday when Prof. Charles Berthel, bridge engineer, will discuss the Carquinez bridge, was extended to members of the other clubs by President W. T. Helms of the Rotary club.

Alley, who was known as "Omar" at the several corners of the White Boulevard, will be sentenced today.

Corinne Merwin, 18, was the state's star witness against Alley. Lloyd Alley, 15, son of the accused man had denied on the stand all of the sensational allegations of Miss Merwin concerning alleged rites of the cult in which she said she had participated.

The radio man faces a stiff fine and possible jail sentence it was said.

DYKES CRUSHED BY IMPOUNDED FLOOD WATERS

(Continued from Page 1.)

Men were picked up on the streets by the thousands and ordered to the levees to pile up bags of sand and strengthen the levees.

Hundreds of boats out of Natchez combed the inundated area across the river in Concordia and Tensas parishes for refugees. Thousands of farmers who thought they could ride through the flood already on their land have begun to rush to higher land and the great concentration camps for refugees. Modern "Paul Revere" these boats comb the inundated region warning of impending disaster and succoring the needy. Crevasse in levees just south of here have thrown a great torrent upon the countryside west of the river. Like the sword of Damocles hangs the levee at Vidalia, La. The levee broke just below Vidalia Saturday.

With the water already bubbling up behind the levee that barrier was expected to snap at Vidalia at any moment. Equally alarming was the situation reported at Echo, on the Red river. An exodus from Bunkie and other towns in Avoyelles parish has begun. Women, children and live stock leading the van of homeless and destitute, and adding to the burden of the Red Cross and other relief agencies. Hundreds of refugees are pouring into Marksville, where a camp has been set up, with the maddened waters finding an outlet through a crevasse in the levee at Vick, on the Red river south of Alexandria, there was hope that this would relieve pressure on the Echo and Big bend levees.

Meanwhile flood water from the Arkansas river in Arkansas rolled southward to join the other swollen rivers in spreading devastation in Louisiana's cotton, sugar and rice lands. Mer Rouge and Oak Ridge are stricken with terror as the inexorable waters surround them.

Backwaters from the Red, Ouachita, Black and Mississippi rivers have covered, forming an inland sea sixty miles across, scarcely a home in this vast expanse that has no water on its

Rev. Woten Returns From Grass Valley

Roy Courley, pianist and child specialist, arrived in Grass Valley Sunday to assist Rev. Frank Woten, of the First Christian church, Richmond in the splendid work he has helped launch in Dr. Baile's Revival. Dr. Baile arrived in Grass Valley yesterday from Twin Falls, Idaho, where he has just closed a successful campaign.

Rev. Woten last night, announced that the Richmond Church Fellowship will meet Thursday night at 6:15 o'clock for a dinner. A program will follow the dinner and will consist of music by the Preacher's Male Quartet and an address by the Rev. Vial, chaplain of San Quentin.

Irish Tenor To Sing At School Benefit

Michael Patrick Brennan, well known Irish tenor, will feature the benefit show to be staged by Our Lady of Mercy church on Friday evening in the Washington school auditorium. The show will start at 8:15 o'clock.

From the Yazoo river section came reports of added distress. Yazoo city is struggling like a nest of ants against onrushing flood waters from a crevasse at Eden and back water from the break in the Mississippi river at stops landing, as well as the swollen Yazoo river. National guardsmen have been ordered into the city to help preserve order.

New Orleans and the county immediately north of that city breathe easier each day as breaks in levees up river occur, because each break relieves tension on the levees below. New Orleans will face her supreme test about May 15 or 20 when the main swell in the Mississippi river hits that city.

Much water leaving the Mississippi river above Baton Rouge eventually will find its way back into the Mississippi but not until after the big bulk in the main river has passed.

Backwater from the Red river has had a tendency to prevent a combined torrent into the Mississippi. However, much of the great lake, now blanketing northern Louisiana on the west bank of Mississippi eventually will roll into the Gulf of Mexico directly south through Atchafalaya according to engineers.

Oscar Brooks To Be Laid At Rest

4 POWERS AND U. S. BREAK ON JOINT ACTION

he ready and willing to cooperate now as in the past.

The entire diplomatic and consular corps in China is understood to be radically opposed to the policy as outlined today. It received a rumor that American Minister John Van A. MacMurray is to resign. This was denied.

The statement of policy was prompted by president propaganda from foreign capitals and China purporting to state the American view, or to create American sentiment in favor of the employment of force. In this connection, the President wished the American public to read with suspicion all reported on the Chinese situation which claim to represent the American position except those emanating from official sources in Washington.

One such report was mentioned specifically. It was that Great Britain, Japan, Italy and France had decided to ignore the United States and had agreed upon a policy of dealing with Chen. The President is inclined to doubt this, it was stated. It was admitted that the ministers of the powers at Peking had agreed upon a policy, but it is believed here it was not approved by all the powers.

This is believed to refer to a tentative draft of an ultimatum to be delivered to Chen shortly after his rejection of the original joint demand for demands. This draft was made by the ministers at a meeting in Peking, during the Easter holidays, in which the American minister participated and recommended its adoption by this government. This recommendation was rejected by the United States within 24 hours. It is believed also to have been rejected by at least one other power.

Standardization in Service

THE manufacturing of equipment for the Bell System was one of the earliest, and is now among the outstanding examples of the standardization and quantity production which are distinctive characteristics of American industry.

Quantity production for the nation-wide Bell System makes it possible to put into every item of telephone equipment better material and better workmanship, at a lower cost to the telephone user, than could otherwise be done. But the dominant advantage of uniform manufacturing, under standard specifications, lies in the improvement of the service.

Every transmitter in the System is designed to work in harmony with every receiver all over the land and to co-ordinate with all the complicated equipment and lines behind. All can function at full efficiency for they are designed and manufactured for that purpose. Standardization, not only of equipment but of operating methods, is the only basis upon which it would be possible adequately to meet America's need of a nation-wide, universal telephone service.
